**Strong Element, However, In Favor of Continuance of the Coal Strike**

## RIOTING OCCURS IN SCOTTISH COLLIERY

**General Belief Is That Malcontents Will Be Defeated in Conference.**

By Bulletin Leased Wire.

London, April 5.—Good Friday was generally disregarded as a holiday in the coal mining districts and there were further resumption of work activity in the district today where all the colliers were put in operation. In Scotland the men who returned to work were mostly non-unionists, the members of the union having received instructions to await the decision of the national conference before resuming operations.

Rioting occurred today in a colliery near Dumfrieshire, Scotland, when union men attacked a body of non-union men who had returned to work. The police were called out and a scuffle took place, but not before considerable property damage had been done.

Following from interviews with the miners' delegates who already have reached London for the national conference and from the instructions to the delegates the conference will be held in and prolonged, the general belief is that the conference will be in favor of continuing the strike is very strong and intends to make a great effort to control the conference.

The general belief is, however, that extremists will be defeated. Their action, it is said, is largely an aggression of discontent with the federation leaders and whatever the result of the conference, it is not likely to bring about a real deal of the strike.

## GOOD FRIDAY BROTHERS PEACE

## WETASKIWIN.

Bulletin News Service.  
Wetaskiwin is to be a city clean and beautiful. The city fathers have issued instructions that all the streets shall be cleaned, and the order is now being carried into effect. Many of the citizens, too, are cleaning up and house and yard cleaning will soon be the order of the day.

The many friends of Mr. and Mrs. W. F. Crane are pleased to learn that their young son, who was dangerously ill a few days ago, is now improving nicely.

Mr. and Mrs. John A. Kerr, of Poplar, spent the weekend in the city renewing acquaintances.

Now that the fine weather is settling in, the sporting enthusiasts of the city are talking baseball. From previous experience, Wetaskiwin will be able to put equally as good a team on the field as last year, as most of the old players are available, and it is understood that there are several new men in town who have won uniforms in fast company. Practising will soon commence.

Mr. and Mrs. F. L. Talbot spent the weekend with the latter's parents at Quatretonne. They went out in the auto and report that the roads are in first-class condition.

The Wetaskiwin Citizens' Band will give an outdoor concert in the city square on Monday night. The concert will be given every night, and the boys will "pass the hat around" on Friday, and it is hoped that their appeal will be generous.

Not as they are desirous of adding to the instrumentation of the band. Rev. W. G. W. Evans, of the Temperance and Moral Reform League, was in the city this week in the interests of the work. He met with good success here, his canvass giving the work nearly five new men and promises.

A silver medal contest, under the auspices of the W.C.T.U., will be given in the Presbyterian Church on Thursday evening of this week. At least eight aspirants will be in competition for the coveted medal and several musical selections will be given.

Mrs. Hyden, provincial president of the W.C.T.U., will also be present and deliver an address.

Rev. C. C. McArthur, superintendent of Baptist missions, conducted a service in the Baptist Church on Sunday evening.

A. C. Patterson, inspector of customs, was in the city this week opening up the office here and at the same time installing Mr. J. Robinson, the local collector, in office. The customs revenue will be looked on favorably by the Conservative Association as club rooms, a large number of people have already arrived for the season and it is expected that Mr. Hubbard will be kept busy from now on.

He is at present at the Capital, going through the customs office there picking up ideas.

Rev. K. A. Froese, B.A., of Loran, Ontario, lately called to the minister of the Presbyterian church here, has accepted the call, and in all probability will be inducted into the charge here on the 5th inst.

## Building Up a Powerful Ottawa Liberal Opposition

By HARRY W. ANDERSON, in Toronto Weekly Globe.

It was Doreau who exclaimed, in a vein of cynicism, "There is no anything like politics." Five short months ago a dedicated, disinterested and disinterested remnant of Canadian liberalism nervously crawled out of the cyclone after a disastrous electoral hurricane. The world had a cold, grey hue. All was devastation and desolation. The tide of power and prestige had been wiped out. Even tall ministers had been tipped and the smaller shrubbery was bent and torn and trampled almost beyond recognition. Nothing remained but a forsaken garden in which even Hope appeared to lie dead. But the different hour came before the dawn. The morning sun broke upon a new scene—a scene of life, of throbbing activity of strong faith, of sound, healthy optimism. And liberalism awoke with the sun to find its life battered but unbroken, to feel it was good to be alive, and to realize it had a day's work to do. It tackled its job with the old homely virtues of courage, cool of head and kindly of heart.

It survived the supreme test. It took its licking manfully and "came back." The public has little use for a party which, when beaten after holding office, sinks in its tent and gives itself the airs of a disappointed heir. Liberalism girded its loins and came forth to its task. It proved its principle practice of no meaningless shibboleths, but were a reality to be maintained and developed by constant service. When it had won it was cheered when defeat came it was unafraid. The pendulum swung forward and backward, but the hands of the clock go only forward.

So liberalism has totally and confidently accepted its new duties. It has not set down with its back to the engine to review the achievements of the past. It rejects the sweeping character of Lord Randolph Churchill's dictum that the business of an opposition is to oppose. Its faith in itself has not grown cold. It is not content with a policy of negotiation, or with propounding misleading platitudes—no retreat, but retreat and unretreating. The opposition of today is ready to build up where it pulls down—to remove obstacles which block the path of progress, and to point the positive goal of endeavor. And, whatever the effect of the change of scene may mean to the country its temporary establishment from office has done the Liberal party no harm. The fighting freedom of opposition is developing the rank as a life of its membership, and the removal of the material from its considerations of public policy is resulting in the reinstatement of the idea.

How much of the remarkable renewed confidence of the Canadian

Constitution is the root of many forms of sickness and of an endless amount of human misery.

### Dr. Morse's Indian Root Pills,

thoroughly tested by over fifty years of use, have been proved a safe and certain cure for constipation and all kindred troubles. Try them. 25c a box.

He has developed initiative, enthusiastic ideals, and given scope to the enthusiasm of youth, tempered by the wisdom of experience.

So Sir Wilfrid Laurier in Opposition has been finding men for the Liberal party and for parliament. He has been allocating every man in the ranks something to do. He has been taking counsel with them all. His finds them both willing and able. The result has been that, while there are fewer Liberals in parliament, there have been for some years past, there seem to be more. A year ago all the responsibility was with the chief and his ministerial leadership. Today every man has an individual responsibility. It is a splendid conception of effective working opposition. There are no dullards. Everyone has something to do, and is doing it. And the process is making home and alien, and virility.

The advent of Hon. Gen. P. Graham into the House, completes the quartet of the "old guard"—members of the former cabinet—who will surround the chief. Hon. Messrs. Pugsley, Oliver, Lemieux and Emmerson have already proved their effectiveness in opposition. Dr. Pugsley, formerly premier and attorney general of New Brunswick, soon alert, capable counsel that he is has proved invaluable in taking care of the legal and technical end of legislation. A brow and bonny fighter is Mr. Lemieux, the eloquent French-Canadian, has demonstrated that his energy can be used to vilify effect. No man is more conscious of this than the present minister of public works and the postmaster general. The absence of Mr. Graham it has fallen to the lot of Mr. Emmerson to handle problems of transportation, (Continued on Page Sixteen)

## Get Rid of your Two Tire Troubles

Rim-Cutting Overloading

35% of tire trouble is due to Rim-Cutting.

A careful inquiry among thousands of motorists shows that nearly one in four old-style tires are ruined by rim-cutting. The reason is that the hook-shaped ring which holds them in place cuts into the fabric of the tire.

No-Rim-Cut Tires are built on a new idea. The round surface of the side ring comes next to the tire.

800-000 No-Rim-Cut Tires have been sold and not one has been wrecked by rim-cutting.

AND they are made 10% oversize—have 10% more carrying capacity than the ordinary tire—enough to provide for heavy extras and overloading. That gives them 35% more mileage with the average car.

## THE FINANCIAL AND COMMERCIAL MARKETS

Chicago Grain Markets

Chicago, April 5.—Crop damage reports were issued with effect today in following about higher prices for wheat. Nebraska in particular joined the bunch of states that sent in complaints on growth having been stunted or killed. Closing futures were 1-3 a 1-4 to 3-4 above last night. Corn finished unchanged to 1-3 a 1-4 up and oats at 1-4 to 1-4 advance.

The 15th stage report showing a wheat condition of six-sevenths or over was against a rise in March and of 1-4 at harvest time, but also the private reports of damage elsewhere were standing that much later would otherwise have had. Thus far the condition reports of leading Chicago houses have all sent in optimistic opinions as to the crop outlook, but none of these experts had yet visited the scenes in which the injury is alleged to be worst. As a matter of fact, the Kansas stories of supposed harm to winter wheat were not so far from the mark as they were at first. On the second there was a good demand deal of roofing by long who were not slow to take advantage of the situation and make sure of profits. During the session, ship futures rose from 56 1-2 a 3-4 to 57 3-4 and closed easy but 1-3 a 1-4 a 3-4 to 7-8. Because of light receipts here the fine weather in the corn belt and futures going to new high levels for the year and held up steadily in the face of profit taking near a lively rate.

Southwestern futures were hoisted, notably a decline of 1-2 a 1-4 for May at Kansas City. In Chicago May corn closed from 71 1-4 a 1-4 to 72 1-4 closing steady 1-3 a 1-4 over last night, at 72 1-2 a 3-4. Grain grades were firm, No. 2 yellow not quoted, but sold at a new record price for the crop, but reacted in consequence of a small amount on the part of holders. Some on bush land in this zone today and will be general through out the central portion of the state next week. 1-cup and lower grades touched for May were 26 and 25 1-4 with last sale 1-4 cent net higher at 26 1-4.

Why buy "Mastic" known as alum baking powder when you can just as well, and at no more expense, get Marie Baking Powder? The ingredients are plainly printed on each package. See it this time on the others. All packages are authorized to guarantee that "Marie" does not contain alum.

**PUBLICITY MEN TO HAVE ORGANISATION**

First Step Towards Formation of Association Taken at Fort William Begin Campaign on Educational Lines.

Fort William, April 2.—The first step has been taken towards the formation of what will probably be called the Canadian Association of Commercial Executives. The association will be composed of the various publicity agents, industrial commissioners, secretaries of board of trade, and any other like positions in Canada. Those who are deeply interested in the project met yesterday in Fort Arthur to discuss the best means of organizing the body and conducting an educative campaign.

**Committee Chosen**  
H. W. Baker of Ottawa and formerly of Fort William was appointed secretary, P. C. Lam and a provisionary executive was elected consisting of the following: A. B. Barnard, industrial commissioner of Halifax, N. S.; W. E. Anderson, secretary of the board of trade, St. John, N. B.; T. L. Brown, secretary of the board of trade of Hamilton; J. C. Henderson, industrial commissioner of London; N. G. Gill, industrial commissioner of Port Arthur; R. J. Purcell, industrial commissioner of Fort William; W. F. R. Hine, industrial commissioner of Winnipeg; J. G. Langdon, publicity commissioner of Brandon; Walter Goun, publicity commissioner of Prince Albert; J. D. McLeod, secretary of board of trade of Kinsley; S. J. R. Davison, secretary of the board of trade of Lethbridge; A. Miller, industrial commissioner of Calgary; Charles Holchman, publicity commissioner, Edmonton; J. L. Leach, commissioner for the associated boards of trade of Southern Alberta; H. H. Graves, secretary of the board of trade, Nanaimo, B. C.  
The first campaign which it is expected that the association will take up will be against the subinfeudation and reckless granting of bonuses and exemptions to industries. The committee for the various cities feel that out of justice to themselves something must be done. They would do away altogether with the system of attracting, but they would be content if the grants were limited to sites and exemptions.

**Are Many Questions**  
There are many questions which in time will be brought up and in fact if the plan were to go into effect municipal problems which each city meets. They will deal with town planning, city beautification, the forms of government, the question of municipal taxation and after matters which affect each city over the continent. It is hoped that at the end of the year a grand convention of the industrial commissioners of the Dominion with the publicity agents and secretaries of the boards of trade will be held in the Twin Cities in conjunction with the meeting of the Western Canada Press Association.

**MEDICAL CASE WAS DISMISSED.**

Calgary Magazine Refused to Allow Medical Association to Withdraw but Gave Dismissal Certificate.

Calgary, April 4.—Magistrate Henderson this morning declined to permit the medical association to withdraw their charges entered against W. J. Metzger for alleged breaches of the medical act. Metzger was dismissed and a certificate of dismissal will be given him.

Metzger was charged with advertising in a Calgary daily his readiness to treat certain diseases. The prosecution failed to connect Metzger with the insertion of the advertisement and yesterday afternoon J. S. Shaw asked leave to withdraw the prosecution, stating it might be taken up again at a later date.

**Justice Holman Chairman**  
Winnipeg, April 4.—Word was received this morning from Ottawa that Mr. Justice Holman had been appointed chairman of the commission board to investigate the trouble existing between the Canadian Pacific freight handlers and the company. The representative on the committee are J. J. Murray for the men and C. P. Fullerton for the company. No date for the first meeting of the board has been arranged but it is said a meeting will be held the first part of the week.

**DEFENCE IN SUICIDE**

Mrs. Louise E. Vermilya Answers to the Charge of Murder on Which She Is On Trial.  
Chicago, April 4.—The defence of Mrs. Louise E. Vermilya, on trial for the alleged murder of Richard T. Smith, is that she committed suicide. This developed today for the first time when Russell P. Thompson testified that Smith threatened two months before his death to commit suicide. Thompson exhibited a bottle containing a liquid which he testified he took away from Smith. Thompson's statement was corroborated by the prosecution. It was admitted after vigorous protest by the Assistant State Attorney, Barthman.

The witness also testified that Smith threatened suicide at the time he threatened to end his life. This testimony is regarded by the defence as a poison receptacle. The prosecution has contended Smith was taken ill suddenly while running at Mrs. Vermilya's home. Mrs. Vermilya was the only other witness examined today. She denied the ownership of the paper box which the state contends she used as a poison receptacle.

**RULE RESEMBLES PLATES**

Washington, April 4.—Giving notice to the senate that on next Wednesday he would speak on former form, Senator Jones of Washington today declared that the rule laid down by the ex-president was in line with that advocated by Pontias Pl. Their views were again. A senator said no more, but his remarks aroused much interest in the promised speech.

**DOCTORS GAVE ME UP**

Bel "Fruit-a-Lives" Cured Me.

MOOREFIELD, ONT., March 28th, 1910.  
"I suffered from severe indigestion and dyspepsia for nearly two years. I could not take food without fearful distress. I could not do any work and became so run down and weak that I could hardly walk. I was attended by experienced doctors and they both pronounced my case incurable, that they could do nothing more for me. They thought my disease was BRISTLE-PAIN AND INJURY. The doctors gave me up and I looked forward for death in a short time.

At this time I was asked me to try "FRUIT-A-LIVES" and from the onset of taking these wonderful tablets I was better, and gradually this medicine completely cured me. I took a large number of boxes, perhaps a dozen, and now I am entirely cured and have gained over thirty pounds in weight."

**HICKY SPICES, LTD.**  
"Fruit-a-Lives" is sold by all dealers in spec. boxes for \$2.00, or three for \$5.00—sent on receipt of price by Hicky Spices Limited, Ottawa.

**HALKIRK**

Bulletin News Service.  
In a runaway, Mr. Geddes, of Hots Lake, received many cuts on the head, one of which nearly severed his eye. Mr. Geddes was on the way to his farm, northwest of Halkirk, and had left Cedar Rapids morning, entering the town the team bolted at the sight of a dead engine on a vacant lot. Being guided by Mr. Geddes in the lively farm, they swerved between barn and office, throwing Mr. Geddes from the wagon against the pump, then continuing in a westward circle. The driver, Mr. Geddes, was then seen to be engaged in the harness and stopped before wagon, horse or harness was badly damaged. Fortunately for Mr. Geddes, Dr. J. H. Naurath was in from his farm and soon patched him up and sewed the cuts.

Farmers are busy cleaning grain, mowing fields, haying out the implements, overhauling old ones, and some are on the land. Possibly the earliest in the district was W. Jones, on the Halkirk River, who started plowing in Halkirk on March 24th. There is a big crop to be put in in the Halkirk River country this year, and, judging by the quality of grain grown in 1911, there will surely be a good crop this year.

Pierre Plouvier, of Notre Dame de Ste. Anne, shipped a car of fine wheat to Fort William last Saturday.

Halkirk farmers' union met Saturday. Four new members were admitted to membership. A car of cedar joints purchased by the buying committee at eleven and a half cents per foot. The U.P.A. adjourned and the meeting was turned into an elevator meeting. J. Jamieson was chairman and E. Morritt was elected secretary pro tem. A clause in the proposed constitution calling for a penalty of one half cent per bushel, was said to be shareholders for what they sell to other elevators than their own, was moved for adoption by J. Hill, and on vote was rejected. The motion of J. Pirralis to make the stock of the company assemble up to twenty per cent. face value, to meet possible deficits, was carried. A committee was elected to have blank note forms printed forthwith, for payment for stock, and the old committee is to arrange to secure these notes from stock purchasers.

Ed. Ferguson, of Wall Lake, was in town Saturday to Monday, taking up Halkirk.

Halkirk Realty Co. sold a quarter section of Halkirk River land to Joseph W. Held, of Hots Lake, Idaho, last week.

Ezra Deslaurie's ten month old daughter is seriously ill with whooping cough.

There is a distinctive style and dash about a "Curzon" Suit which the "ready-to-wear" or "semi-ready" garments sold in Canada and the States lack. Indeed the "Curzon" cut and finish is hardly equaled even in garments sold by the best Canadian Tailors, whose charges are almost exclusive. There is just that ease and comfort about our garments which give the wearer a "well at ease" appearance.

Then there is the cloth to remember: nothing but the best materials every time.

## ASK YOUR DRUGGIST ABOUT NYALS REMEDIES

Nyals Family Remedies are scientifically and accurately compounded for specific purposes. Your druggist will recommend them because he knows the formulae from which they are made—knows their value for the purpose for which they are intended.

There is nothing mysterious or "Care-all" about them, and they are recommended by the druggist because he would rather sell a standard preparation than one of unknown value.

Nearly every druggist carries Nyals Remedies, and all that do recommend them highly, not because of the profit in them, but because of their real value.

You may not know whether certain medicines will benefit you, but the fact that your druggist knows every ingredient in each Nyals Remedy, and its medicinal action, puts him in a position to advise you safely.

**Nyals FAMILY REMEDIES**

are put up uniformly in bright dandelion-colored packages. Ask your druggist about them.

There is one for each everyday ailment.

You'll find it a pretty safe rule that the druggist who recommends Nyals is a good man to deal with for your other drug-store wants.

## BUILDING UP A POWERFUL OPPOSITION

(Continued from Page Ten.)

and the Westminster man has shown that he has no "lost his art."

But it is in the remarkable development of the rank and file of the Liberal membership that the party finds its inspiration. The whole opposition machine seems to be galvanised with currents of optimistic activity. "The boys"—the chief affectionately designated by the party—are coming into their own. There is none of the traditional inertia of opposition; nothing of the customary reactionary tendency. Each unit has a definite and not incoherent function of its own. There is no room in the Liberal party of today for the mere idler. From Chief Whip Fred Pardee to the humblest back-bencher they are eager, energetic and confident.

Ontario, for the moment, takes a very modest numerical position in the parliamentary representation, but Ontario has no reason to blush for the output of the men. Mr. Pardee is working as he never worked before. Despite the fact that the government majority is nominally fifty, only one division has shown the figures to be over forty, a tribute to the generalship of the chief whip. With him is associated Thomas C. How, one of the celebrated father and an ardent worker in the cause of liberalism. In debating provinces the province has Messrs. Hugh Guthrie and A. H. Clarke, both of whom are not only able to hold their own in any company with the ministry. There is Hon. W. Charlton, wise, considerate and experienced legislator and "Johnnie A.M. que" McMillan and "Archie" Macdonald, among the younger men exercising a big influence through their local eloquence and their political acumen. It will be truly better "Tom" Law resigned his seat for Mr. Graham.

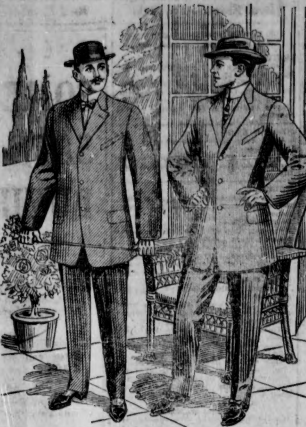

Quebec's contribution is an enthusiastic and eloquent one. Hon. Dr. Beaudry, for three weeks pastmaster of the assembly, is destined for a high place in the annals of the Liberal party. As a speaker he is a wizard, combining a calm manner with an effective manner of presenting his case. He wins his way, rather than forces it. Mr. Jacques Bureau is a fatherly, courteous of his diminutive stature through the love of conflict, and he has more than his share of homely political sagacity.

Prince George-Maitland Province comes a phalanx of stalwart soldiers. In the front row of the fight are Messrs. E. M. Macdonald is located, and who sends the thoughtful Conservative who seeks to cross swords with the Liberal man. Close behind are Mr. F. B. Carville, acute and shrewd, and Mr. A. K. Maclean, formerly attorney-general of Nova Scotia, who is one of the most valuable additions to the present parliament. Then there are Mr. G. W. Kite and J. H. Black, two other Nova Scotians who are prominent in the ranks. Mr. D. D. McKenna, one of the veterans, and Mr. J. J. Hughes who "came back" from Prince Edward Island at the last election, are always ready for a share in the combat.

The prairie of the great and growing west have a splendid force of Liberal representatives. In Dr. Michael Clark, of Red Deer, they possess probably the most brilliant and effective orator in the House. Not a man on the government benches, from the grander down, takes a combat with the sturdy Alberta man. In Dr. Molloy and Mr. Robert Croft, the latter the conqueror of the stalwart giant Campbell, Manitoba Liberalism sent two splendid and aggressive men to parliament to represent their interests. Dr. Molloy is an effective speaker, while Mr. Croft demonstrated in his maiden effort his ability to hold his own in the rough-and-tumble of debate. Prominent among the Saskatchewan men are Messrs. W. C. Knowles, J. A. Turin and W. M. Martin, all warm advocates of the interests of the prairie producer and vigorous in battle for his rights. Alberta made a wise choice in Mr. W. A. Macrae in Medicine Hat. "Bill" Buchanan given promise of being one of the most able and energetic of the future, while "Jimmy" Douglas, the Alberta whip, is one of the hardest workers and most popular representatives.

Make no mistake about it: Liberalism is very much alive; very much awake and inure to the holding its own at Ottawa these days. The chief is building up within it a sound and optimistic sentiment. It is learning to rely less upon the advertising value of immediate success and more upon the deeper significance of true national service. It is concerned less in catching votes and more in convincing opinions. It is learning the truth of Daniel O'Connell's declaration that nothing is politically right which is morally wrong. It is realizing that Canada needs a man of the franchise of action and more of the unifying mind; that it is better to be concerned about the next generation than the next election.

It is not so alone, under such circumstances, that setbacks and setbacks are not the prevailing mood abroad. Liberal parliamentarians, strange as it may seem, the defeat of September 21 is the cause of much of their enthusiasm. For from Sir Wilfrid down, they have come to the point of rejoicing over that defeat, the manner in which it was brought about, and the way in which the country now regards it. Their daily successes in the House and the tribulations which have followed the government over since Premier Borden formed his cabinet, have justified their leader's assurance of "Liberalism's memory is long." Time is with us. They make mistakes, but they do not fail. They are more for the fray, confident of their cause, intemperate to their leader, and permeated with the conviction of ultimate triumph. It is a pretty hard problem to build such a combination long at all.
